

Remote Learning Schedules: Grades K-5

CCSD59 will provide continuity of instruction for students through our Remote Learning Plan. ISBE has now provided guidance to school districts related to Remote Learning, and we are in the process of adjusting our approach. Some of the major elements of the ISBE guidance are:

- Remote Learning plans should provide opportunities for continued learning that focuses on critical standards of the grade level or subject, with an emphasis on promoting review, mastery, and extension of previously taught skills and concepts.
- Remote Learning Plans should help students and families set and maintain routines and structures and ensure that they stay connected to schools and learning.
- Districts should prioritize the mental well-being of students and try to support them socially, emotionally, and academically.
- Districts should ensure that daily learning activities require students to engage in learning for age-appropriate durations, with additional optional enrichment opportunities being provided for those who wish to go beyond.
- Please refer to the Weekly Schedules and Helpful Resources below.

Additional Information

- This daily schedule was created mainly to help families from being overburdened with having every subject every day and to help them streamline and organize their remote learning time. If a child is not able to complete a lesson during the designated time, then the child should complete it at their earliest opportunity and will not be penalized.
- Remote learning is challenging both for families and for our staff. If a teacher needs to adjust their availability for feedback or connecting with students for any reason, they will communicate that to families.
- Families will notice that we are continuing our Wednesday afternoon professional learning time. This time will be critical for our staff so they can continue planning, collaborating, and receiving training on remote learning tools.
