

This activity is not sponsored by Community Consolidated School District 59, any of its schools, or groups officially associated with the District.

**Join us for
lively, creative,
hands-on, in-person
scientific exploration!**

(Click to go to online application)

Fun with Physics!

Long Grove • 1st-5th grades

Challenge traditional theorems (after all, they're only *assumed* to be true) as you investigate the facts and fables, principles and properties of matter, energy, motion and force. Brain-storm with your peers to generate new scientific discovery as you seek to prove or disprove so-called facts via exciting, hands-on experiments!

A one-day program; Instructor: Sara Tsioles; Tuition \$50

In Long Grove on Sunday, November 28, 1:00-3:00

**- Program Location -
The Center for Gifted
4160 Route 83, Long Grove**

Click to enroll

using our online application.

Feel free to call or email anytime with questions about the application or enrollment.

- Ongoing Opportunities -

Schedule a Private Friend-Group Program! Choose your course topic, day(s), time, location—and even your classmates! We will work with you to create an exclusive in-person program taught by one of our outstanding faculty.

Interested in More Options? Please feel free to share with us the types of activities and courses of particular interest to you and your bright, motivated children, whether for fall, winter, spring, or summer; weekends, week days, after school, or school holidays. We would love to hear from you as we look to 2022!

*** * continued * ***

Contact our Program Coordinator, Vickie Leonard,
anytime about Friend Groups or any of our fall or future programs, via
phone or text (847-902-0188) or email (darnoelv@gmail.com).

* * * * *

The Center for Gifted offers inspiring learning experiences in small
peer-group classes, in its own controlled, safe, nurturing environments.

Proof of student eligibility is not required for our 2021/22
fall and winter programs. It is our privilege to serve bright, motivated
children seeking new challenges and fresh inspiration.

Grade level requirements for the various programs are flexible. Feel free
to contact us if you wish to discuss grade-level exceptions for your child.

Programs and activities of The Center for Gifted are modified to meet
Illinois and CDC guidelines in effect at the time they run. Currently, students
are required to wear masks and carry their own water bottles and hand
sanitizer. They are reminded as needed to wash hands and observe
our guidelines for working together and sharing materials.

Tuition is payable in full with enrollment. Full refunds of tuition
for any fall or winter program will be granted for withdrawals requested
via email to info@centerforgifted.org, by 24 hours before the
program begins; and for programs that are cancelled.

Ever considered IQ testing for your child?

We invite you to have a conversation with our on-staff school psychologist,
Cheryl Lind. An IQ test can ascertain not only whether a child is gifted, but also
at what level and in which areas. It reveals learning styles, strengths, weaknesses,
and how the child manifests these as a learner at home and in school. It can be a great
awakening for parents and result in giant steps forward for the child. To talk or for an
appointment, call or text Cheryl at 847-970-8074 or email cheryllind@yahoo.com or
info@centerforgifted.org. Her current locations for testing or in-person counseling
include Glenview, Park Ridge, Elmhurst, and Long Grove. Cheryl Lind, M.Ed.,
Ed.S., is an Illinois Licensed and National Certified School Psychologist.
