

# 5th Grade Science

Interactions in Matter  
Ridge Family Center for Learning

# 5th Grade Science

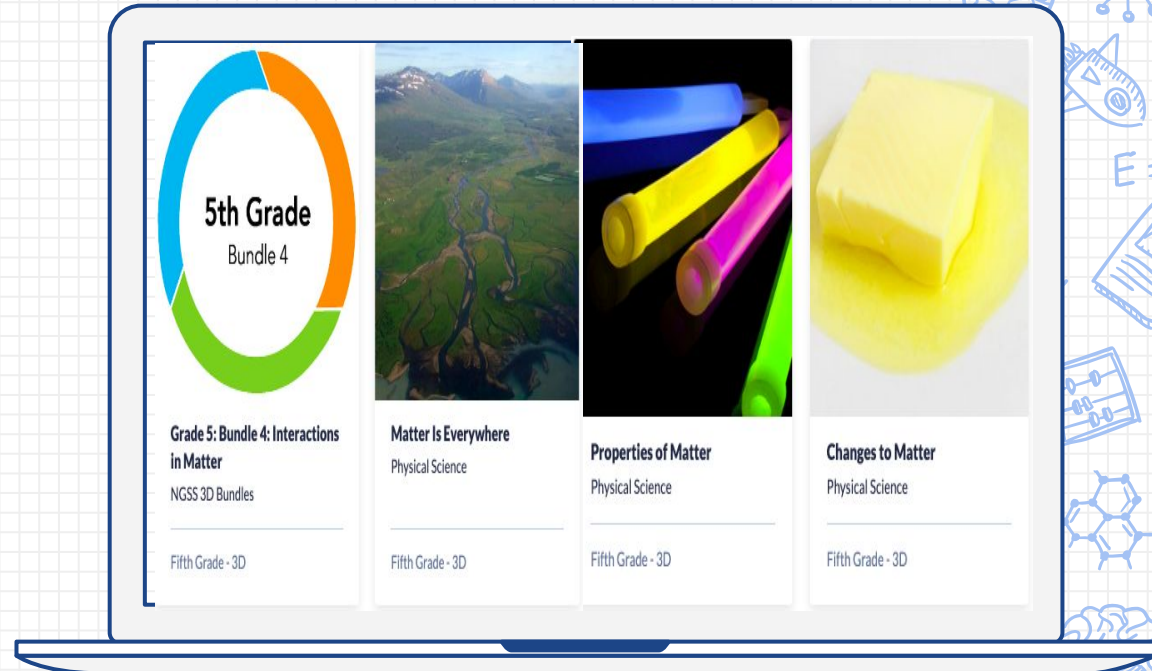

🌀 Introductions

🌀 Overview of  
Stemscopes Science

🌀 Matter

🌀 Students testimonials

🌀 Hands-on Experiment

# What does a scope look like?

---

## Engage

- Investigative Phenomena
- Accessing Prior Knowledge
- Graphic Organizer
- Hook

## Explore

- Activity 1
- Activity 2

## Explain

- Reading
- Vocabulary
- Review Activity

## Elaborate

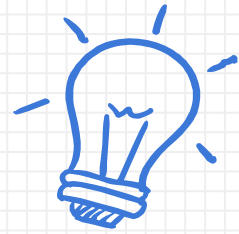

- Math Connection
- Reading Connection

## Evaluate

- CER
- Open Response
- Multiple Choice

# Matter is Everywhere

# How do we know matter is everywhere?

## CLAIM

We know matter is everywhere because it takes up space and cannot be destroyed.

## Evidence

Where's the Sugar?

Figuring out Physical Properties

Solubility

What's My Weight?

## Reasoning

From our experiments / activities we learned matter is always around us, even when we cannot see it or change its state.

# What do you like about science this year?

- Learning a lot
- Experiments
- Hands -on
- Not on zoom
- Guest scientist
- Learning chemistry
- Learning about the scientific process
- Tools are available to us
