2021-22 Capacity, Official Enrollment, Demographics, and Building Utilizations

The following document contains a series of tables of statistics for current schools and boundaries that are being evaluated, including enrollment, demographic, and utilization statistics. The current student enrollment numbers were derived from the district's 10/01/2021 student database. This document also contains the same set of statistics for two elementary school redistricting options currently being considered, a straight redistricting option that changes school boundaries but does not pair or close schools, and a pairing option. The pairing options closes Ridge and combines the remaining schools into K-2/3-5 pairs. The paired schools are listed adjacently in the tables and are combined with a black outline. Estimated enrollment is calculated using live-attend in the straight redistricting option and live-in in the pairing option. There is also a junior high school redistricting option that adjusts the boundaries but does not close any schools. Finally, this document contains a set of maps of current school boundaries and proposed boundaries for each redistricting option.

Glossary of Terms

Capacity - The number of students that can be safely accommodated in each physical school building.

Utilization - The total enrollment divided by the capacity, described as a percentage.

Live In students - Students residing inside of a school attendance boundary, regardless of where they attend school.

Live and Attend students - Students who attend school in the zones in which they reside.

Live Out Attend In students - Students that live outside of their attending school's zone boundary but reside within the school district boundary.

Out of District students - Students that live outside of the school district's boundary.

Unmatched students - Students not able to be located by the GIS.

Table Notes

Student counts are based on the 10/01/2021 CCSD 59 Student Database.

Students attending specialty schools are not included in the counts.

In the demographic tables, rounding can lead to total percentages of slightly over or under 100%.

DRAFT Options Summaries

A note on naming conventions: Currently, there is a redistricting option for both elementary and junior high. Redistricting options only change zone boundaries. Pairing options combine elementary schools into K-2/3-5 pairs and sometimes also move zone boundaries. There are four elementary pairing options and two junior high pairing options. Pairing options 3 and 4 at the elementary level align with pairing options 3 and 4 at the junior high level, but no specific junior high pairing options were created for elementary pairing options 1 and 2, and so there are no options labeled “Junior High Pairing and Redistricting Option 1” or “Junior High Pairing and Redistricting Option 2.”

Redistricting Option (ES and JHS)

- All grade cohorts remain the same
- Moves boundary lines
- Does not pair schools
- Improves utilization

Pairing and Redistricting Option 1 (ES)

- Moves boundary lines and pairs schools
- Pairs Devonshire (K-2) / Brentwood (3-5), Forest View (K-2) / Low (3-5), Jay (K-2) / Frost (3-5), Rupley (K-2) / Salt Creek (3-5) and Bryd (K-2) / Clearmont (3-5)
- Repurposes Ridge (usage to be determined)
- Improves demographic balance

Pairing and Redistricting Option 2 (ES)

- Moves boundary lines and pairs schools
- Pairs Devonshire (K-2) / Brentwood (3-5), Forest View (K-2) / Low (3-5), Jay (K-2) / Frost (3-5), Ridge (K-2) / Salt Creek (3-5) and Bryd (K-2) / Clearmont (3-5)
- Repurposes Rupley (usage to be determined)
- Improves demographic balance

Pairing and Redistricting Option 3 (ES and JHS)

- Moves boundary lines and pairs schools
- Flips grade cohorts of Devonshire/Brentwood and Jay/Frost as compared to Options 1 and 2
- Pairs Brentwood (K-2) / Devonshire (3-5), Forest View (K-2) / Low (3-5), Frost (K-2) / Jay (3-5), Ridge (K-2) / Rupley (3-5) and Bryd (K-2) / Clearmont (3-5)
- Repurposes Salt Creek to a Junior High School
- Maintains perfect feeder patterns
- Improves demographic balance

Pairing and Redistricting Option 4 (ES and JHS)

- Moves boundary lines and pairs schools
- Flips grade cohorts of Devonshire/Brentwood and Jay/Frost as compared to Options 1 and 2
- Brentwood (K-2) / Devonshire (3-5), Forest View (K-2) / Low (3-5), Frost (K-2) / Jay (3-5), Ridge (K-2) / Byrd (3-5) and Clearmont (K-2) / Rupley (3-5)
- Repurposes Salt Creek to a Junior High School
- Creates a feeder pattern split at Frost / Jay between Friendship and Holmes
- Improves utilization
- Improves demographic balance

Appendix A: Live Attend Matrices

The following tables display where students live and attend relative to school zones. The schools of attendance are listed on the left while the zones are listed on the top. This student data is from the October 1, 2021, Consolidated Community School District 59 student database.

The first column of numbers to the right of the schools of attendance represents the number of students enrolled at each given school. The first row of numbers below the zones represents the total number of students living inside of each given zone. The green-colored numbers represent number of students who attend the school of the zone in which they live. All other numbers represent students who attend school outside of the zone in which they live. The bottom row represents the number of students that “Live-In and Attend-Out” by school. The blue-colored cell shows the total number of students that “Live-in and Attend-Out”. The farthest right column represents the number of students that “Live-Out and Attend-In” by school. The orange-colored cell shows the total number of students that “Live-Out and Attend-In”.
