

Community Consolidated School District 59

Equity Task Force Meeting 2 Redistricting Exercise Addendum

September 8, 2022

Cropper GIS

This handout is an addendum to the primary statistics handout. It describes a pure redistricting exercise that was conducted to explore the feasibility of achieving demographic and utilization balance throughout the district without pairing schools. Due to the drastic nature of the cuts required to achieve balance, it was decided to not further develop this as an Option, but to present it to the group as an exploratory exercise to demonstrate the Options development process, to generate discussion, and ultimately to provide an opportunity to learn from this attempt. Some glossaries, keys, and explanatory paragraphs are excluded from this addendum, as they are in the main handout for reference.

Elementary School Current and Redistricting Exercise Enrollment and Utilization Statistics

		2021-22 Enrollment and Utilization			Redistricting Exercise Enrollment and Utilization			
Elementary School	2021-22 Capacity	Current Enrollment	Current Utilization	Trend	Grade Config.	Estimated Enrollment	Estimated Utilization	Trend
