ADDITIONAL INFORMATION

Each student had an ESY plan that showed which goal areas they have qualified under, as well as the number of minutes that were to be provided each week of ESY.

Throughout ESY, staff kept track of how students were performing on their goal areas. Typically teachers utilized students' work samples and completed a formal assessment to measure progress. Teachers recorded student progress and whether they were able to maintain progress on their goal. Updated to Embrace.

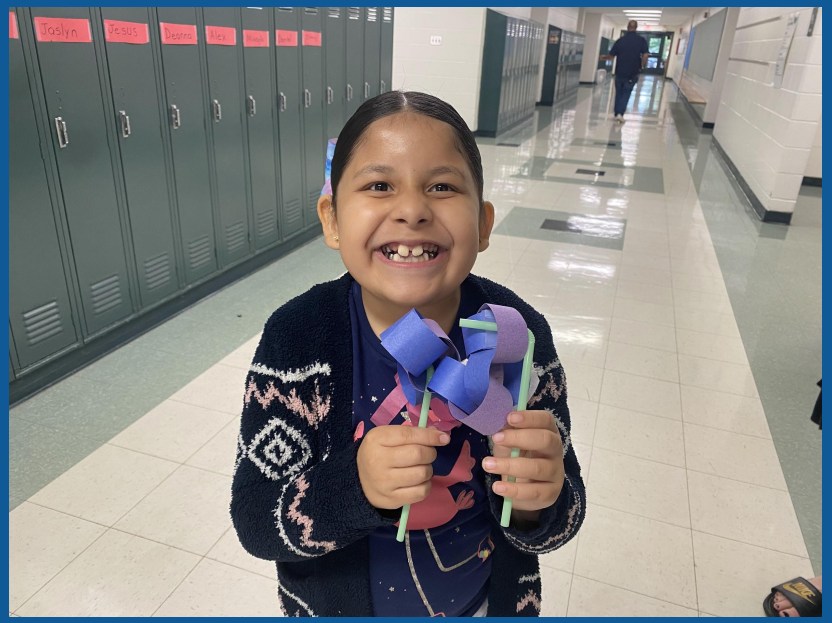
Staff Feedback, Survey Results

- 42/95 staff completed our Summer School Survey
- Communication from summer school leaders was excellent
- Resources provided met student needs
- Field Day was a great celebration



Parent Feedback, Survey Results

- 26 families completed our Summer School Survey
- Almost all respondents felt that their child enjoyed summer school and benefited from the program
- Almost all respondents would like to send their child to summer school again

"Both boys were happy to go to school every morning and always had something positive to say about their new friends, their teachers, the story they read that day or the activities they participated in. It's been a great experience overall."

Summer School Next Steps

Fall/Winter 2022

- Review current student data and family survey information to determine needs
- Establish Summer Program Committee of interested staff to revise academic program options
- Develop criteria for course proposals by interested staff
- Interest-based courses focusing on student choice, creativity, and engagement while continuing emphasis on literacy and math skill development
